Subject: RE: (So. Belridge - AERA) Aquifer exemptions

Tim, after refreshing my memory, I am certain that this aquifer has not been exempted. Much work has been done delineating, etc. further there were issues raised with the Fresno Reg. Board (and offset). I remember that certain deep zones would not be contested by anyone. Burt Ellison and Shelton Gray and I had a lot of exchanges back then.

I have a recent copy of a document submitted by AERA's Ron Chambers to Adele Lagomarsino, DOGGR dated June 30, 2011. Do you have this copy? It seems to be AERA attempting to address the previous issues raised that I referred to above.

Let's discuss at your convenience next week. I have an open week except for late Wed. morning (at this point).

Hi Tim, apologies for my late response (to Marilu's email too) I will get back to you and we should have a phone call too. I also have a situation with Aq. Exemptions that goes back to 1983 in Dist 4. I'll tell you what I think should be done and get your feedback. I am preparing for another meeting but tomorrow is open - are you available tomorrow?

thanks,
George

Subject: Aquifer exemptions

George,

In addition to the two attached aquifer exemptions, I believe there is a third one for an area near South or North Belridge oil field in Kern County.

I cannot locate a copy of that document. Do you have a copy that you can e-mail this way?

Thanks
